

The Coca-Cola Company
2014 U.S. Corporate Political and PAC Contributions Report
January 1, 2014 - December 31, 2014

Corporate political contributions are legally permitted political donations using The Coca-Cola Company's general treasury funds, in certain jurisdictions and under certain circumstances. While corporations are not permitted to contribute to U.S. federal political campaigns or to the national political parties, they can contribute to state and local candidates in many jurisdictions as well as to the "party building activities" of political parties.

The Company's federal political action committee, Coca-Cola PAC, is a voluntary employee program funded by employee contributions, and donations are made to U.S. federal candidates, committees and parties.

The Georgia Political Action Committee, GA PAC, is a legal entity set up to make contributions to state and local candidates, committees and political parties in Georgia. Corporate political contributions are permitted in Georgia.

The Company's state political action committees, GEN ST PAC, MA PAC, MD PAC, NM PAC, NY PAC and RI PAC, are voluntary employee programs funded by employee contributions, and donations are made to state and local candidates, committees and political parties.

Note: In 2014, we gave to certain candidates with respect to both their primary and general elections. Applicable political contribution limits are per election. As a result, relevant election limits have not been exceeded. In addition, negative disbursements are for contributions made during 2013 which were either lost in transit or returned.
